GAUCHO

SPARKLING

All six of our sparkling wines from Argentina are made in the Champagne method. There is a real buzz about Argentina in the wine business at present, not least because of the excitement surrounding the quality of these wines. We have always known this of course.

TORRONTES

Thought to originate from Galicia in Spain, this unique grape variety achieves its true potential in the Northern province of Salta, home to the highest vineyards in the world. The locals in Cafayate, the centre of wine production in this province, are so proud of this grape that they make ice cream from it. And it is delicious. You may find some tartrates in these wines (crystals) as some are Bio-Dynamic and are not subject to cold stabilisation. This is a sign of quality – after all, wine is a natural product.

CHARDONNAY

Chardonnay likes a cool climate, and so is well suited to the higher regions of Mendoza. The beauty of the fruit, particularly from Tupungato in the Uco Valley, is preserved by the wonderful acidity and mineral rich soils. The use of oak in these wines is very restrained, allowing the purity of the fruit to shine through.

SAUVIGNON BLANC

If you had asked us if Argentina was capable of producing great Sauvignon Blanc 5 years ago we would have said no. Such is the speed of change in Argentina that we have been proved completely wrong. Here the cool temperatures found at altitude provide the means to preserve that all-important acidity and aromatic intensity naturally found in this grape.

RED WINE

BONARDA With it's origin in Piedmonte in Italy, this unique and wonderful 'work-horse' grape variety was brought over by Italian wine-makers at the end of the 19th century. It is now only second to Malbec in terms of volume grown.

TEMPRANILLO Tempranillo's origins lie in the Rioja region in Spain. Outside Rioja, Argentina is the most important producer of this grape and is gaining a reputation for a grape capable of producing very fine wines.

TERRUÑO Tempranillo 2006/7 Luigi Bosca Barrancas Maipu Mendoza 680m	£ 5.40	£14.35	£21.50

O FOURNIER 'B Crux' 2003/4 (A little Merlot/Malbec too) Tupungato Uco Valley 1050m			£43.50

SANGIOVESE The grape of Chianti and Italy's most planted grape. It is easy to see the connection with Argentina as here it gives great colour and complexity and a distinct savoury character – perfect with our beef cuts.

CRISTOBAL 1492 2005/6 Lujan de Cuyo Mendoza 850m	£5.85	£15.65	£23.50
BENEGAS 2005/6 Cruz de Piedra Maipu Mendoza 776m			£37.00

MERLOT

This Bordeaux grape needs a cool but sunny climate, and so is at its best at altitude, where warm days and cool nights lengthen the ripening of the grapes for more intensity and complexity. Patagonia is also showing much promise for this variety.

PINOT NOIR

Patagonia is pinning much of its future on Pinot Noir – the most demanding of all grapes to grow. Here the cool winds, high sunshine intensity and mineral soils make for a unique style and quality gets better and better in this new region.

SYRAH (SHIRAZ)

Syrah is often ignored in favour of Cabernet Sauvignon and Malbec, but is a very important grape for Argentina, producing earthy wines with guts and character. The warmer areas (particularly Maipu in Mendoza) are well suited to Syrah as this is a grape that likes a little heat.

PETIT VERDOT

For many years, this Bordeaux blending grape was labelled in Argentina as Fer, but this late ripening and sometimes temperamental grape is increasingly planted for single varietal wines in Mendoza.

CABERNET SAUVIGNON

The terroir of Argentina is perfect for Cabernet, since it needs a warm climate to ensure a full ripening period, which is virtually guaranteed due to the consistency of the climate. Cabernet Sauvignon is rarely made on its own to such character, intensity and finesse as in Argentina.

CABERNET FRANC

Like the rest of the Bordeaux varieties, Cabernet Franc has found its home in Argentina. This grape is traditionally blended, but is increasingly made as a single varietal in Mendoza and the Rio Negro, producing leafy and elegantly aromatic wines.

HUMBERTO CANALE 'Black River' Cabernet Franc 2005/6 Rio Negro Patagonia ▲ 250m			£38.50

MALBEC

Brought over to Mendoza from Bordeaux by Amee Puget, the famous Bordeaux oenologist in 1850, it was clear that this grape was destined for greatness in Argentina. Malbec (known as 'cot' in France) is the Jewel in Argentina's crown. Below are some of the finest Malbecs in the world which, when combined with the Beef, offer an unbeatable food/wine combination. Malbec is also beautiful with chocolate.

BLENDS R

In many respects, the blends below lend an idea as to the style of Bordeaux before they virtually gave up on Malbec. There is no doubt that in Argentina the Cabernet/Malbec blend forms a large part of the fine wine tradition, since this combination works so well.
